ENERGY POLICY

Index to Volume 16

February, April, June, August, October, December 1988

Articles – titles

Electricity

Competition, marginal cost tariffs and spot pricing in the Chilean electric power sector. *Sebastian Bernstein*. 16.4, 369–377

Electric power: competition or centralization? *Fred M. Westfield*. 16.4, 378–383

Electricity-output ratio and sectoral electricity use: the case of East and South-east Asian developing countries. *B.W. Ang*. 16.2, 115–121

Electricity pricing: optimal operation and investment by industrial consumers. *H. Outhred, C.H. Bannister, R.J. Kaye, Y.B. Lee, D. Sutanto and R. Manimaran*. 16.4, 384–393

Industrial effects of UK electricity privatization. *Martin Ince*. 16.4, 409–414

Loaded questions: new approaches to utility forecasting. *John B. Robinson*. 16.1, 58–68

Management of a spot price based energy marketplace. *Fred C. Schweppe*. 16.4, 359–368

North–South grid interconnection. *Andrew Mackillop*. 16.6, 621–623

Public ownership and the performance of the UK ESI. *Francis McGowan*. 16.3, 221–225

Special paper: New developments in superconducting materials: implications for the electricity supply industry. *Francis McGowan*. 16.5, 506–513

Spot pricing of electricity: arguments and prospects. *S.C. Littlechild*. 16.4, 398–403

The pros and cons of spot pricing – electric utility perspective. *Fereidoon P. Sioshansi*. 16.4, 353–358

What is the CEGB worth? The impact of future government action. *C.W. Hope*. 16.3, 211–220

Energy policy analysis

Dubious economic advice: the 'decision' on Sizewell B. *J.W. Jeffery*. 16.5, 516–523

Energy policy analysis. *Pantelis Capros and Emmanuel Samouilidis*. 16.1, 36–48

Financial implications of spot pricing. *Robert Smith*. 16.4, 394–397

Loaded questions: new approaches to utility forecasting. *John Robinson*. 16.1, 58–68

Management of a spot price based energy marketplace. *Fred C. Schweppe*. 16.4, 359–368

Measurements of energy productivity in Asian countries. *Wen S. Chern and William E. James*. 16.5, 494–505

Or would you rather live in Italy? the geography of preferred energy futures. *Anthony G. Hoare*. 16.2, 164–179

Some investment aspects of non-oil spot pricing. *Michael G. Webb, Ibrahim I. Elwan and Lionel Maistre*. 16.4, 348–352

Spot and efficient pricing in non-oil energy markets: introduction. *Thomas G. Weyman-Jones*. 16.4, 341–347

Spot pricing of non-oil energy sectors. *Tom W. Berrie*. 16.4, 335–340

Energy and the environment

Countercrisis. *Andrew MacKillop*. 16.2, 110–114

Greenhouse warming: comparative analysis of nuclear and efficiency abatement strategies. *Bill Keepin and Gregory Kats*. 16.6, 538–561

Is the heat on? *Irving Mintzer*. 16.1, 69–72

Pursuing the energy efficiency–conservation path. *Peter Bunyard*. 16.5, 458–460

The politics of oil: a view from Norway. *Gro Harlem Brundtland*. 16.2, 102–109

UK policy on acid rain: European pressures and emission prospects. *Jim Skea*. 16.3, 252–269

Energy conservation and efficiency

Greenhouse warming: comparative analysis of nuclear and efficiency abatement strategies. *Bill Keepin and Gregory Kats*. 16.6, 538–561

Local energy conservation initiatives in the UK: their nature and achievements. *Bill Sheldrick and Sally Macgill*. 16.6, 562–578

More daylight, less electricity. *Mayer Hillman and Jon Parker*. 16.5, 514–515

Participation of the elderly in residential conservation programmes. *Linda G. Berry and Marilyn A. Brown*. 16.2, 152–163

Pursuing the energy efficiency–conservation path. *Peter Bunyard*. 16.5, 458–460

Energy security and world trade

Countercrisis. *Andrew MacKillop*. 16.2, 110–114

Exchange rate fluctuations and stability in the oil market. *Massood V. Samii and Claude Clemenz*. 16.4, 415–423

North–South grid interconnection. *Andrew MacKillop*. 16.6, 621–623

Energy supply and demand

Loaded questions: new approaches to utility forecasting. *John B. Robinson*. 16.1, 58–68

The new power sector planning. *Tom. W. Berrie*. 16.5, 453–457

Energy technology

Heat pumps and combined heat and power: a technology assessment. *Clark W. Bullard*. 16.6, 579–593

Power from the people: technology users and the management of energy innovation. *M.S. Gamser*. 16.1, 27–35

New developments in superconducting materials: implications for the electricity supply industry. *Francis McGowan*. 16.5, 506–513

Technology and the prospects for natural gas: Results of current gas studies. *Hans-Holger Rogner*. 16.1, 9–26

LDCs

Countercrisis. *Andrew MacKillop*. 16.2, 110–114

Electricity-output ratio and sectoral electricity use: the case of East and South-east Asian developing countries. *B.W. Ang*. 16.2, 115–121

Energy policy issues in developing coun-

tries: lessons from ASEAN's experience. *Corazon Morales Siddayao*. 16.6, 608–620
North-South grid interconnection. *Andrew MacKillop*. 16.6, 621–623

National energy profiles and government policy

Australia's role as an energy exporter: status and prospects. *A.D. Owen*. 16.2, 131–151
Competition, marginal cost tariffs and spot pricing in the Chilean electric power sector.*Sebastian Bernstein*. 16.4, 369–377
Energy planning in Tanzania: emerging trends in planning and research. *Simon R. Nkonoki and Elias Lushiku*. 16.3, 280–291
Energy policy issues in developing countries: lessons from ASEAN's experience. *Corazon Morales Siddayao*. 16.6, 608–620
Interfuel competition in France and West Germany. *Javier Estrada and Ole Fugleberg*. 16.3, 292–296
Public ownership and the performance of the UK ESI. *Francis McGowan*. 16.3, 221–225
The politics of oil: a view from Norway. *Gro Harlem Brundtland*. 16.2, 102–109
Towards a competitive market-related energy policy. *Peter Rost*. 16.5, 450–452
UK policy on acid rain: European pressures and emission prospects. *Jim Skea*. 16.3, 252–269
US international oil policy: patterns of the past define future policy. *Hans Jacob Bull-Berg*. 16.3, 243–251
Utilization of Nigerian natural gas resources: potentials and opportunities. *Felix B. Dayo and Anthony O. Adegbulugbe*. 16.2, 122–130
What is the CEGB worth? The impact of future government action. *C.W. Hope*. 16.3, 211–220

Nuclear power

Greenhouse warming: comparative analysis of nuclear and efficiency abatement strategies. *Bill Keepin and Gregory Kats*. 16.6, 538–561
Dubious economic advice: the 'decision' on Sizewell B. *J.W. Jeffery*. 16.5, 516–523
Nuclear power: an option for the Third World? *John Surrey*. 16.5, 461–479
Prospects for inherently safe reactors. *Jack N. Barkenbus*. 16.1, 49–57
The costs of completing unfinished US nuclear power plants. *Stephen L. Feldman, Mark A. Bernstein and Robert B. Noland*. 16.3, 270–279

Oil and gas

An exploration–production view of oil. *Philip Oxley*. 16.1, 3–5
Exchange rate fluctuations and stability in the oil market. *Massood V. Samil and Claude Clemenz*. 16.4, 415–423
Oil exporters' disappointing diversification into resource-based industry: the external causes. *R.M. Auty*. 16.3, 230–242
Status report on the US natural gas industry. *Anne V. Roland*. 16.3, 226–229
Technology and the prospects for natural gas: results of current gas studies. *Hans-Holger Rogner*. 16.1, 9–26
The outlook for oil: a few controversial comments and prospects. *Giuseppe M. Sfligiotti*. 16.1, 6–8
The politics of oil: a view from Norway. *Gro Harlem Brundtland*. 16.2, 102–109
The West European gas market: the current position and alternative prospects. *Peter R. Odell*. 16.5, 480–493
US international oil policy: patterns of the past define future policy. *Hans Jacob Bull-Berg*. 16.3, 243–251
Utilization of Nigerian natural gas resources: potentials and opportunities. *Felix B. Dayo and Anthony O. Adegbulugbe*. 16.2, 122–130

Renewables

The potential for wind energy in Britain. *Michael J. Grubb*. 16.6, 594–607

Third World energy

Electricity-output ratio and sectoral electricity use: the case of East and Southeast Asian developing countries. *B.W. Ang*. 16.2, 115–121
North–South grid interconnection. *Andrew MacKillop*. 16.6, 621–623
Nuclear power: an option for the Third World? *John Surrey*. 16.5, 461–479
Power from the people: technology users and the management of energy innovation. *M.S. Gamser*. 16.1, 27–35

Leaders

An exploration–production view of oil. *Philip Oxley*. 16.1, 3–5
UK electricity privatization. *John Cheshire and John Surrey*. 16.2, 98–101

Communications on energy

Dubious economic advice: the 'decision' on Sizewell B. *J.W. Jeffery*. 16.5, 516–523
European energy performance contracting. *Ian Brown*. 16.3, 297–300
Is the heat on? *Irving Mintzer*. 16.1, 69–72
More daylight, less electricity. *Mayer Hillman and Jon Parker*. 16.5, 514–515
North–South grid interconnection. *Andrew MacKillop*. 16.6, 621–623
The structure and sources of energy science. *Anastassios Pouris*. 16.3, 301–304
The weak links in community energy policy. *J. Stuart Wabe*. 16.3, 305–307

Viewpoints

Countercrisis. *Andrew McKillop*. 16.2, 110-114
The new power sector planning. *T.W. Berrie*. 16.5, 453–457
The outlook for oil. *G.M. Sfligiotti*. 16.1, 6–8
The politics of oil: a view from Norway. *Gro Harlem Brundtland*. 16.2, 102–109
Pursuing the energy efficiency–conservation path. *Peter Bunyard*. 16.5, 458–460
Status report on the US natural gas industry. *Anne Roland*. 16.3, 226–229
Towards a competitive market-related energy policy. *Peter Rost*. 16.5, 450–452

Conference reports

Annual symposium of the Uranium Institute, London, UK, 2–4 September 1987. *Arthur Conway*. 16.1, 90–92
Clean Coal, London, UK, 15–16 June 1988. *Jim Skea*. 16.5, 523–524
Energy demand for the 1990s, London, UK, 28 September 1987. *Francis McGowan*. 16.1, 88–90
Energy economics and energy politics, IAEE, Washington, DC, USA, 11–13 November 1987. *Fereidoon P. Sioshansi*. 16.2, 200–202
Energy pricing: regulation, subsidies and distortion, Third World Study Group, Kings College, London, UK, 1 October 1987. *Peter Pearson and Paul Stevens*. 16.2, 195–197
Energy privatization, Surrey Energy Economics Centre, University of Surrey, Guildford, Surrey, UK, 2 March 1988. *David Hawdon*. 16.4, 429–432
Environmental aspects of electricity privatization, London, UK, 16 November 1987. *Jonathan Parker*. 16.3, 315–316
Fusion workshop, Culham, UK, 12–13 November 1987. *Gordon Mackerron*. 16.3, 314
Prospects for oil and future development in the Arab world, Amman, Jordan, 1–2 December 1987. *R. Aburas*. 16.3, 312–314
Privatizing electricity . . . a chance for change? London, UK, 5 October 1987. *Francis McGowan*. 16.1, 88–90
Radioactive waste management, London, UK, 25–26 February 1988. *Frans Berkhout*. 16.4, 432–433
Renewable energy sources, London, UK, 2 December 1987. *John L. Bindon*. 16.3, 316–318
The future of nuclear power after Sizewell B, London, UK, 21–23 September 1987. *Arthur Conway*. 16.1, 90–92.
World Electricity, *Financial Times*, London, UK, 16–17 November 1987. *Francis McGowan*. 16.2, 198–199.

Book reviews

A changing Climate: Environmentalism and its Impact on the European Energy Industries by Andrew Holmes (Timothy O'Riordan). 16.2, 184.
Advanced Coal Use Technology by Walter C. Patterson (Jim Skea). 16.5, 528.
An Assessment of Bioethanol as a Transport Fuel in the UK by J.E. Marrow, J. Coombs and E.W. Lees (Chris Lewis). 16.4, 437–438
Annual OPEC Report by OPEC (Michael Morrison). 16.4, 435–436
Apres les chocs by Patrick Crequi and Nina Kousnetzoff (Guy de Carmoy). 16.4, 440–441
British and Norwegian Offshore Industrial Relations by Svein S. Andersen (Eric M. Uslaner). 16.4, 438–439
Building on Success: The Age of Energy Efficiency by Christopher Flavin and Alan B. Durning (Warren H. Donnelly). 16.5, 524–525.
Chernobyl and the Safety of Nuclear Reactors in OECD Countries by the Nuclear Energy Agency (John L. Bindon). 16.1, 87–88.
China and Malaysia: Social and Economic Effects of Petroleum Development by Peter Hills and Paddy Bowie (Vaclav Smil). 16.3, 318–320
China: Energy Sector Outlook by Todd Johnson (Vaclav Smil). 16.3, 318–320
China's Potential in International Coal Trade by Guy Doyle (Vaclav Smil). 16.3, 318–320
Consumer Behaviour and Energy Policy ed by Eric Monnier *et al* (John Chessire). 16.1, 79–81
Current Choices – Good and Bad Ways to Privatise Electricity by Allen Sykes and Colin Robinson (Francis MacGowan). 16.2, 189–190
Development Aid by Eurofi Plc (Tom W. Berrie). 16.4, 439.
Economics, Growth and Sustainable Environments ed by David Collard, David Pearce and David Ulph (Chris Hope). 16.4, 433–434.
Electricity in South East Asia and the Far East by David Hayes (Andrew MacKillop). 16.2, 184–185.
Energy, Food, Environment: Realities, Myths, Options by Vaclav Smil (David Bellamy). 16.1, 81–82.
Energy for Development by Jose Goldemberg *et al* (David Pearce). 16.3, 327
Energy for a Sustainable World by Jose Goldemberg *et al* (David Pearce). 16.3, 327
Energie Internationale 1987–88 by Institute for Energy Economics and Policy (Andrew MacKillop). 16.2, 186–187.
Energy: Markets and Regulation, Essays in Honor of M.A. Adelman, ed by Richard L. Gordon, Henry D. Jacoby and Martin B. Zimmerman (Harry D. Saunders). 16.3, 320–322
Energy Research: Directions and Issues for Developing Countries by International Development Research Centre (Gordon MacKerron). 16.1, 86–87.
Energy Resources Development: Politics and Policies by Richard L. Ender and John Choom Kim (Eric M. Uslaner). 16.3, 324–325
Energy Security to 2000 ed by R. Belgrave,

C.K. Ebinger and H. Okino (Gordon MacKerron), 16.3, 326–327

Energy Study of NW Region of the UK by March Consulting Group (Andrew Warren). 16.4, 441–442

Energy Without End: The Case for Renewable Energy by Michael Flood (David Elliot). 16.1, 84–85

How to Implement Waste-to-Energy Projects by Marc J. Rogoff (Dave Mansell). 16.3, 329

Nuclear Energy and its Fuel Cycle: Prospects to 2025 by International Atomic Energy Agency (Steve Thomas). 16.2, 188–189.

Nuclear Imperatives and Public Trust: Dealing with Radioactive Waste by Luther J. Carter (Carl E. Behrens). 16.2, 187–188.

Nuclear Power: Policy and Prospects ed by P.M.S. Jones (L.G. Brookes). 16.2, 190–191.

Renewable Sources of Energy by International Energy Agency (Andrew MacKillop). 16.2, 193–194.

Rural Electrification for Development: Policy Analysis and Applications by Mohan Munasinghe (David Pearce). 16.4, 434–435.

Secretary General's Thirteenth Annual Report AH 1406/AD 1986 by OAPEC (Michael Morrison). 16.4, 435–436.

Setting up a National Energy Efficiency Agency: An Agenda for Action by Earth Resources Research (Andrew Warren). 16.3, 325–326.

Socio-Economic and Policy Implication of Energy Price Increases by Armand Pereira, Alistair Ulph and Wouter Tims (Michael G. Webb). 16.4, 436–437.

Spot Oil, Netbacks and Petroleum Futures: The Emergence of a New Market by Fereidun Fesharaki and Hossein Razavi (Michael B. Morrison). 16.2, 185–186.

State of the World 1988 by Lester R. Brown *et al* (Michael Redclift). 16.5, 525–526.

Starpower: The US and the International Quest for Fusion Energy by US Congress Office of Technology (Gordon MacKerron). 16.3, 326–327

Technical and Economic Impact of Cogeneration by Institution of Mechanical Engineers (Wolfgang Rüdig). 16.1, 85–86

The Arabs and the Oil Crisis 1973–1986 by Ali A. Attiga (Richard Eden). 16.3, 330

The Business of the Japanese State: Energy Markets in Comparative and Historical Perspective by Richard L. Samuels (Richard L. Gordon). 16.2, 192–193.

The Economics of Choice Between Energy Sources ed by Pierre Maillet, Douglas Hague and Chris Rowland (Ian Smart). 16.5, 526–527.

The International Oil Industry: An Interdisciplinary Perspective ed by Judith Rees and Peter Odell (S. Fred Singer). 16.3, 328–329

The 1986 Oil Price Crisis: Economic Effects and Policy Responses ed by Robert Mabro (Massood V. Samii). 16.5, 527–528.

The Political Economy of Natural Gas by Ferdinand E. Banks (Jonathan Stern). 16.2, 191–192.

The Politics of Energy Forecasting ed by T. Baumgartner and A. Midttun (Chris Hope). 16.1, 83–84.

Uranium and Nuclear Energy ed by Peter Bird (Arthur Conway). 16.1, 82.

World Coal: Economics, Policies and Prospects by Richard L. Gordon (Charles D. Kolstad). 16.3, 328

Bookwatch

Croesus gropes for riches: North–south, east and west. 16.1, 73–77; On shalts and shalt nots. 16.2, 180–182; Come back coal, oil is forbidden, 16.3, 308–311; Bludgeonings of chance, 16.4, 426–429; From the abstract . . . to the concrete, 16.5, 529–533; The evergreen renewables, 16.6, 624–628. *Arthur Conway*

News of the World Bank

16.1, 78–79; 16.2, 183; 16.3, 307–308; 16.4, 424–426. *Tom W. Berrie*

Letters to the editor

Misleading impressions in book review. *Jon McLin*, 16.2, 194

A reply. *Andrew MacKillop*, 16.4, 442

Prisoners of philosophy. *Howard K. Shaper*, 16.6, 628.

Addendum

Electric power plant in India: a strategy of self-reliance. *John Surrey*. 16.1, 93.

Book review ommission. *Gordon MacKerron*. 16.4, 442.

Corrigendum

Who pays for the long-term costs of nuclear power? *J.W. Jeffery*. 16.1, 93.

Meetings on energy

16.1, 95–96; 16.2, 204–205; 16.3, 332; 16.4, 445–446; 16.5, 535–536; 16.6, IBC

Publications received

16.1, 94–95; 16.2, 203–204; 16.3, 330–331; 16.4, 443–445; 16.5, 534.

Index to Volume 16

16.6, 629–632.
